EDUCATION

Christ University Kengeri, Bengaluru <i>B.Tech in Computer Science and Engineering (CGPA: 8.5/10)</i>	2023 – 2027 <i>Present</i>
GD International School, Rohtak, Haryana <i>12th CBSE Board (GPA: 8.34/10)</i>	2022 – 2023
GD International School, Rohtak, Haryana <i>10th CBSE Board (GPA: 9.02/10)</i>	2020 – 2021

TECHNICAL SKILLS

Languages: Python, MySQL, Bash (Shell Scripting)
Clouds: AWS (EC2, Lambda, S3, IAM, VPC, CloudWatch, API Gateway)
DevOps & Automation Tools: Docker, Kubernetes, Linux, Git, GitHub, n8n
Frameworks & APIs: FastAPI, REST APIs
AI/ML: NLP, transformer-based models, model training & evaluation
Tools: Power BI, Tableau, Burp Suite

PROJECTS

Serverless File Sharing Portal Python, AWS, Lambda, API Gateway, IAM, S3 – Designed and deployed a serverless architecture using AWS Lambda, API Gateway, and S3 for file sharing. – Implemented IAM-based access control and pre-signed URLs for secure, time-limited file access. – Built scalable and highly available cloud infrastructure eliminating backend server management.	GitHub
AI-Powered CI/CD Failure Analyzer Python, FastAPI, Streamlit, n8n, Docker, Gemini API – Built a CI/CD failure analyzer to parse pipeline logs and detect errors, warnings, and failed stages. – Integrated Gemini API for root cause analysis and actionable debugging suggestions for build and deployment failures. – Developed a FastAPI backend with Streamlit dashboard and n8n workflows for real-time monitoring, alerts, and incident response.	GitHub
Real-Time Fake News Detection System Python, FastAPI, AWS SageMaker, NewsAPI – Developed a real-time news verification system integrating NewsAPI for cross-checking headlines with trusted sources. – Built REST APIs using FastAPI to process user queries and fetch relevant news articles dynamically. – Implemented hybrid architecture combining online verification with ML-based fallback using AWS SageMaker.	GitHub

WORK EXPERIENCE

VAPT Intern <i>Global Technology & Information Security (GTIS), Gurugram</i> – Performed Vulnerability Assessment and Penetration Testing (VAPT) on web applications. – Identified and exploited vulnerabilities using Burp Suite and Kali Linux aligned with OWASP Top 10. – Analyzed security flaws including XSS, SQL Injection, and authentication vulnerabilities. – Gained exposure to network security, including Wi-Fi and Bluetooth attack techniques.	Apr 2025 – May 2025
Application Developer (Team Project – Govt School Initiative) <i>Teachlly – Parent Teacher Communication App, Bengaluru</i> – Collaborated in a team to design and develop “Teachlly”, a scalable parent-teacher communication platform. – Built backend services using Firebase and RESTful APIs for real-time data synchronization and updates. – Implemented role-based access control (RBAC) ensuring secure access for teachers, parents, and administrators. – Contributed to deployment and optimized communication workflows in a real-world school environment.	Dec 2025 – Feb 2026

CERTIFICATIONS

PCAP: Programming Essentials in Python — Cisco Networking Academy

AI Fundamentals — IBM SkillsBuild

Networking Basics — Cisco Networking Academy

Cloud Foundations — AWS Academy

Foundations of Data Science — AWS Academy

Advanced Drone Technology Workshop — India Space Lab

Drone Technology — L&T EduTech

EXTRA CURRICULAR ACTIVITIES

National Cadet Corps (NCC) – Air Wing Cadet

June 2023 – Present

- Selected for Ek Bharat Shreshtha Bharat National Camp, Hassan; received DDG recommendation for exceptional performance in camp.
- Completed CATC camps and contributed to defence-related events.
- Led and coordinated university-level events, demonstrating leadership, discipline, and team management.

IEEE EXECOM Member

Apr 2024 – Present

- Managed paper submissions and coordinated sessions for an international conference (INC4).
- Organized logistics and operations for a 24-hour hackathon (Anvesha), ensuring smooth execution.
- Supported technical events, speaker sessions, and IEEE membership initiatives.
